I OPPOSE THE DRAFT M.O.U. being proposed by the FDA. In particular, I OBJECT to the definition of "inordinate amount" which restricts the availability and the right to obtain medically necessary compounded medications by limiting the number of prescriptions that can be shipped across state lines from specialized compounding pharmacies.

COMMENTS: I like the idea of taking just
one pill rather than 3 for my medication,
it is simpler - I think we should
have a right to purchase our medication
from who we want as long as the
prescription are from a doctor + legal,
California does not have compounding pharmacies
formulate the prescription for you -
inconvenient is when we can only
buy 1 month supply which does add
extra expense.
